The Maya Angelou Center for Health Equity envisions the achievement of health equity by moving scientific discovery to action.

The Maya Angelou Center for Health Equity is dedicated to the goal of achieving health equity by:

- conducting translation research to impact population health,
- developing sustainable and mutually-beneficial community partnerships, and
- delivering educational initiatives to diversify the clinical, biomedical, and public health workforce.

The values of the center are:

- Efficient Research
- Empowered Community Partnerships
- Excellence in Professional Development and Training
